[GOIT](#)  
**Aug 2021 - now**  
Department of Accounting and Auditing  
[Vinnitsa cooperative technical school](#)  
**Sep 2010 - Jul 2013**

<https://my-portfolio/>

### SUMMARY

Hello, I'm a Junior front-end developer. I am constantly researching and developing new technologies and best practices. Currently my stack consists of HTML5, CSS3, JS, React. Looking for a job in an office with the ability to work remotely. My level of English is below average, but I have already begun to improve it. Attentive to details, I like to learn something new, progress never stands still.

### PROJECT EXPERIENCE

#### NOTES

A small web application adapted to all devices. Written in pure JS. There is the ability to add, delete and change the created note.

**HTML5, CSS3, SASS, JavaScript, Parcel**

[Project link](#)

#### TODOS LIST

Standard web application for everyone portfolio. I also made my own. Ability to add and remove todos. Trained in using the REST API.

**HTML5, CSS3, SASS, JavaScript, Parcel, REST**

[Project link](#)

#### ICECREAM

The first team project on the course, after layout. Created the header for the site including mobile menu and navigation.

**HTML5, CSS3, SASS, JavaScript, Parcel**

[Project link](#)

#### FILMOTEKA

Team project after JS course. I have been working here on a modal window that appears when you click on a movie poster.

**HTML5, CSS3, SASS, JavaScript, Parcel, HandleBars**

[Project link](#)

#### WEBSTUDIO

First project in the course. Here I went from the basics of HTML to a full-fledged cross-browser and adaptive layout.

**HTML5, CSS3, SASS, JavaScript, Parcel, REST**

[Project link](#)

#### IMAGE FINDER

Just write what you want to find and you will immediately get the result. The first small application I wrote in react.

**HTML5, CSS3, JavaScript, React, Webpack, REST**
