BOHDAN STRILETS

FRONT-END DEVELOPER

PORTFOLIO

Notes

List of personal notes.

- View live page
- View page code

A small web application adapted to all devices. Written in pure JS. There is the ability to add, delete and change the created note.

TODOS List

Your personal todo list.

- View live page
- View page code

Standard web application for every portfolio. I also made my own variation.

ICECREAM

Ice cream made with passion.

- View live page
- View page code

The first team project on the course, after layout. Created the header for the site including mobile menu and navigation.

FILMOTEKA

Application for finding your favorite movies.

- View live page
- View page code

Team project after JS course. I have been working here on a modal window that appears when you click on a movie poster.

CAR HISTORY

The history of the car.

- View live page
- View page code

A small application to see the history of your car, designed to cut costs.

WebStudio

Portfolio for a small web studio.

- View live page
- View page code

First project in the course. Here I went from the basics of HTML to a full-fledged cross-browser and adaptive layout.
